-

Projects

Project 1: Office Network Infrastructure

Designed and implemented an office network infrastructure, which improved operational efficiency and boosted profits by 70%. I shadowed the team lead in the project.

Project 2: Microsoft 365 Tenant-to-Tenant Migration

Led a Microsoft 365 tenant-to-tenant migration, resulting in a seamless transition and a 60% increase in productivity. I was the team lead in the project.

Project 3: Telemedicine System

Developing a backend using Node.js, Express, and MySQL to streamline patient management and appointment booking. I was the lead in the project.
